SIGCOMM Discussion Maillist

This is the mail list for discussions of ACM SIGCOMM, including technical and administrative discussions and conference posts. This includes discussions on technical content and administration of:

Computer Communications Review (CCR)

IEEE/ACM Transactions on Networking

SIGCOMM Conference and its related workshops

Internet Measurement Conference (IMC)

Other SIG-sponsored workshops:

HotNets

SIGCOMM Asia

SIGCOMM Latin America

Commercial posts, including job posts and book announcements, are not considered appropriate. The list is open to all, and requires subscription in order to post. Information on how to subscribe, post, and view the archives is available at: <http://www.postel.org/sigcomm>

SIGCOMM's Internet Measurement Conference (IMC) has decided to relocate from New Orleans due to the events from Hurricane Katrina. The new location has not yet been chosen but will be announced as soon as possible here and at the conference Web site at:
